Dear Duncan

I just wanted to drop a quick line to thank you and the team at 1PCS. Since the re-launch of our website and the search engine positioning work your team have carried out, the rate of enquiries from our website has increased four fold.

From our records we can clearly see the source of where all our work is coming from and this has enabled us to decide that next year we will drastically scale down our other forms of advertising such as yellow pages. As a result of this we will save £4,000.00 per annum

Thank you for the friendly help and advice I'm sure the success of our new website will continue.

Yours sincerely

David Lawrence
Managing Director
