**Ref: David Lawrence – LCS Northampton**

Dear David

I am writing this letter to thank you personally for all your support and recent referral's you have generously given me over this past few months and for work you have done for me.

Your professionalism, reliability, and a "hands on" approach I feel is the most important part of any business, and you have always displayed these qualities when performing any quotations and more recently contract cleaning at Pets at Home.

Having your support and guidance this year for me I have to say has turned my business around. Although hard decisions have been made this year, though's decisions have cemented the foundations of my business and for that alone I say "thank you".

I would always recommend LCS to any of my customers and wish David all the luck in the future.

Kind regards
